Standard Conditions	1-5 as on reverse of this form	
Additional Conditions	6-21 at attached	

For and on behalf of
WELLINGTON REGIONAL COUNCIL

.....
Manager, Consents and Investigations

Standard Conditions

1. This consent is subject to all relevant provisions of the Resource Management Act 1991, its amendments and any regulations made thereunder. It is the obligation of the consent holder to comply with all the statutory requirements relating to the exercise thereof.
2. The consent holder may keep all such records as may be reasonably required by the Wellington Regional Council and shall, if so requested, supply this information to the Wellington Regional Council.
3. This consent is subject to the Wellington Regional Council or its servants, or its agents, being permitted access at all reasonable times for the purpose of carrying out inspections, measurements and the taking of samples.
4. The design and maintenance of any works relating to the exercise of the consent must be to a standard adequate to meet the conditions of the consent.
5. An annual charge, set in accordance with section 36(2) of the Resource Management Act 1991, shall be paid to the Wellington Regional Council for carrying out its functions in relation to the administration, monitoring and supervision of resource consents, and for carrying out its functions under section 35 (duty to gather information, monitor and keep records) of the Act.

General Information

[not part of the consent]

1. The granting of this consent does not imply compliance with the requirements of any other statute, bylaw or regulation.
2. A consent may be exercised only for the purpose stated in that consent. For example, a consent to take water does not authorise the discharge of water or contaminant into water.
3. A water or discharge consent is not an authority to obtain access to a source of water or a point of discharge.
4. In granting a consent to take or use water the Wellington Regional Council does not guarantee or represent that the quality or quantity specified or implied will be available or maintained.
5. The consent holder must, when required, supply the Wellington Regional Council with information on the exercise of the consent.
6. If there is a serious temporary shortage of water the Wellington Regional Council may issue a direction under section 329 that the taking or use of any water be apportioned, restricted or suspended for a period of up to 14 days and such a direction may be renewed from time to time.
7. The consent holder may apply, pursuant to section 127, to the Wellington Regional Council for a change or cancellation of consent conditions, except that the term of the consent cannot be extended by such a change.
8. A consent shall be exercised only by the consent holder or their duly authorised agent. A coastal, water or discharge consent may, pursuant to sections 135, 136 and 137 and upon written notice to the Wellington Regional Council, be transferred to a new owner of the land in respect of which the consent is granted but on the same terms and conditions and for the same purpose as set out in the consent.
9. The consent holder shall make payment of such annual resource management cost recovery fees as may be notified and confirmed by the Wellington Regional Council from time to time in accordance with section 36 of the Resource Management Act 1991.

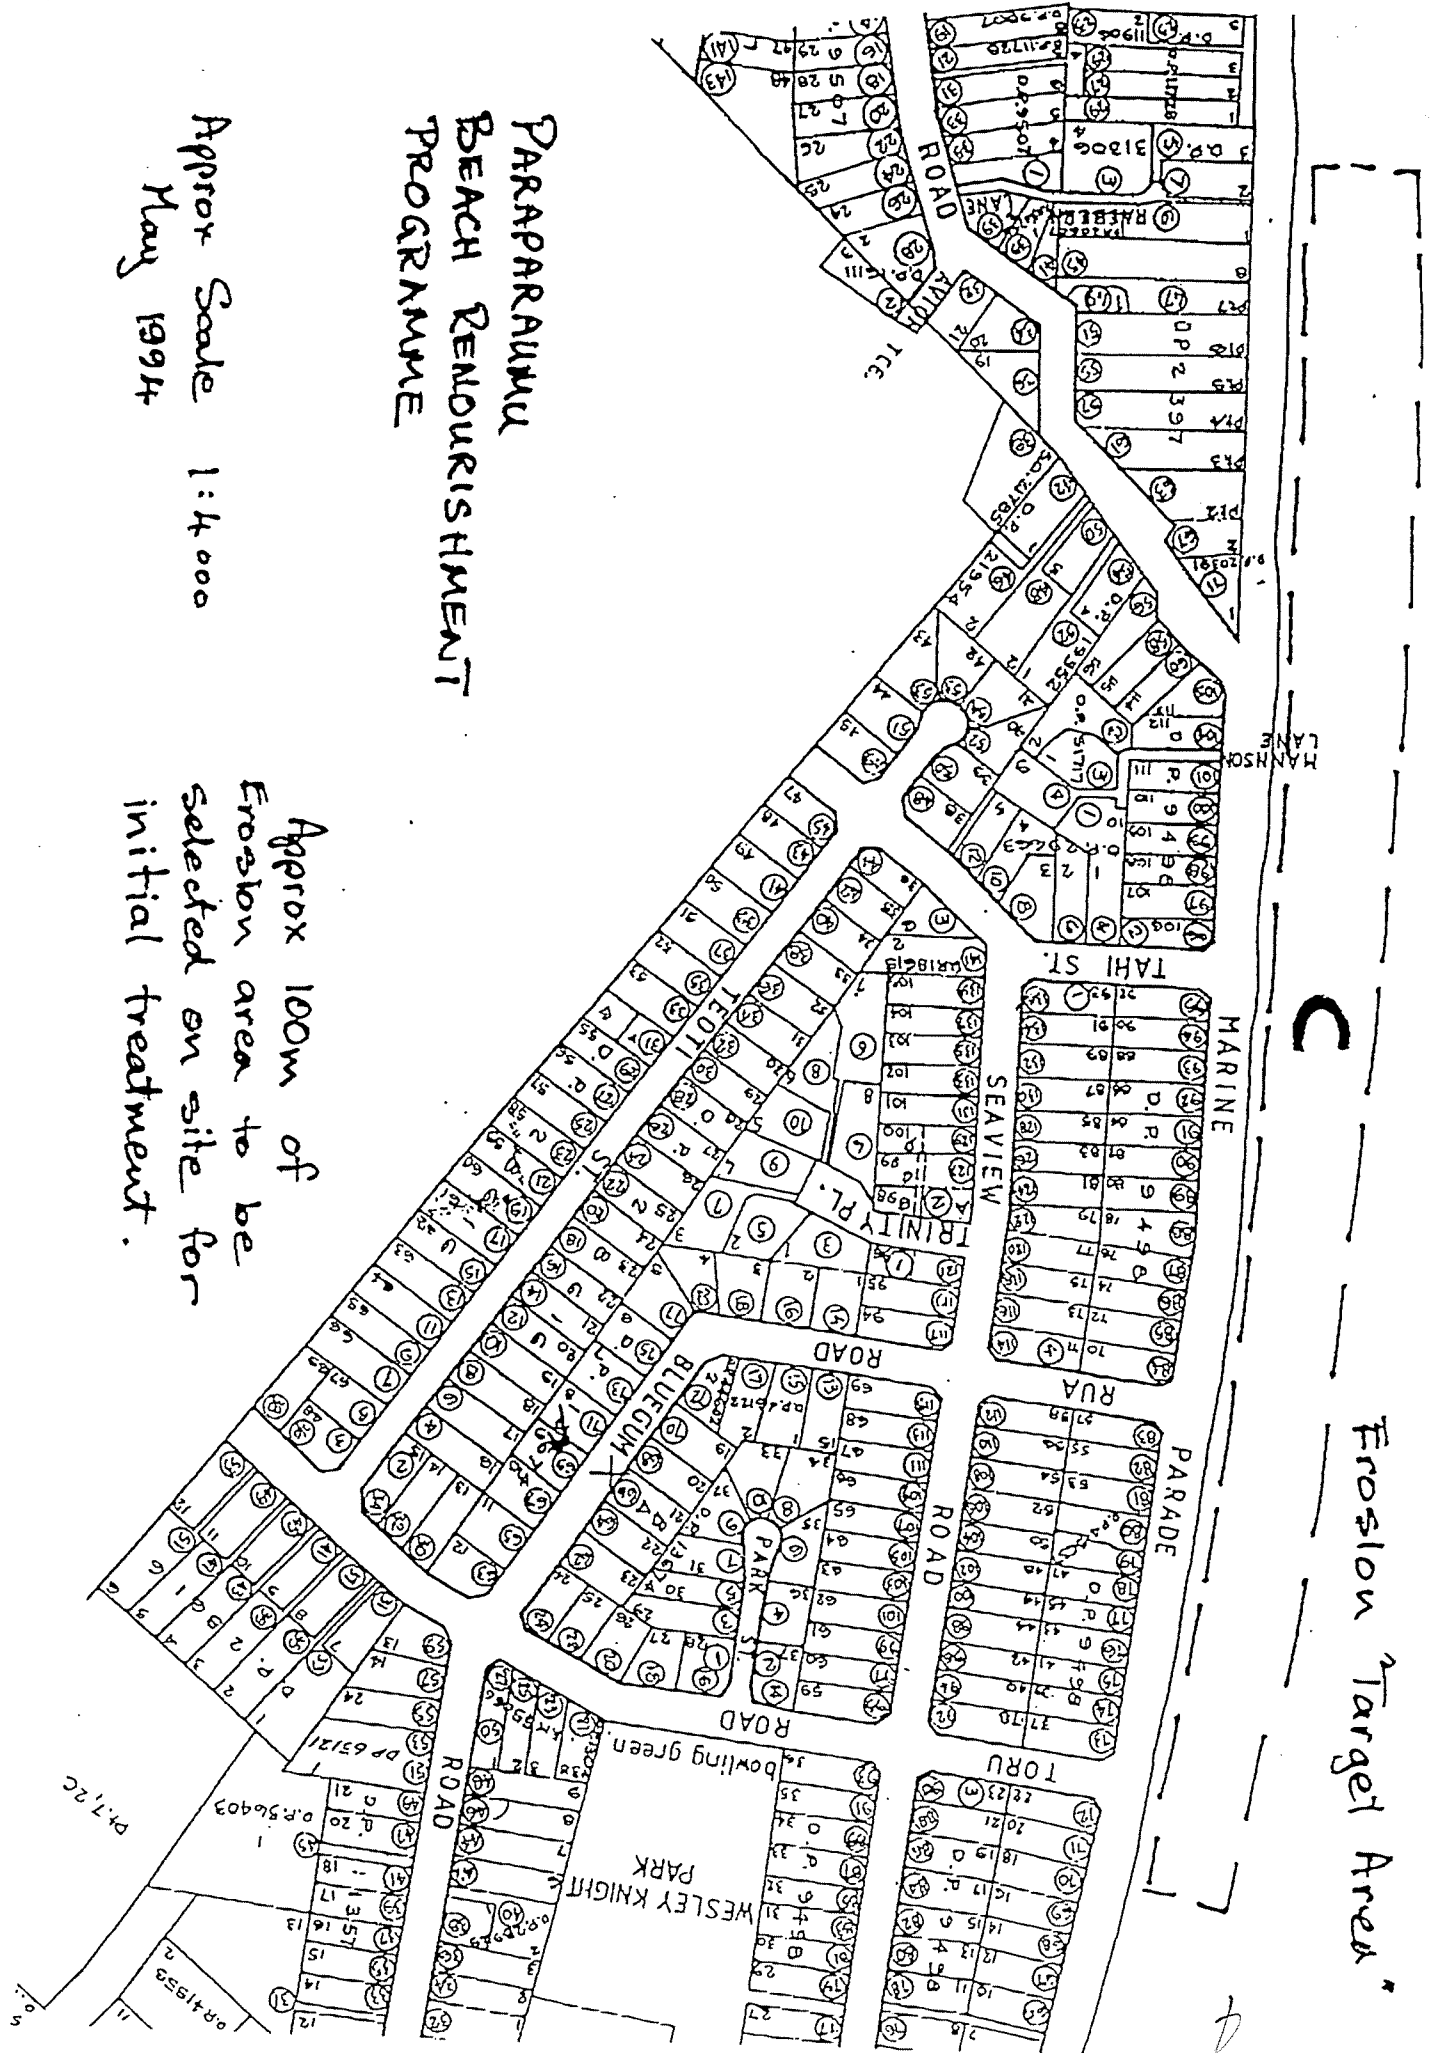

Additional Conditions

6. Prior to the commencement of the proposed works the grantee shall advise the Manager, Consents and Investigations, of the date of commencement and completion of the work.
 7. Sand shall only be excavated from the accreted beach adjacent to Manly Street, Paraparaumu, delineated as area A on the attached site plan (Attachment 1).
 8. Sand shall only be deposited onto the eroding beach adjacent to Marine Parade and Wharemauku Road, Paraparaumu, delineated as area C on the attached site plan (Attachment 2).
 9. The amount of sand excavated in the trial beach renourishment shall not exceed a maximum volume of 6,000 cubic metres.
 10. The grantee shall excavate by means of scraping to ensure holes are not formed on the beach face.
 11. Beach scraping shall be to an average depth of 150 mm and not to exceed 200 mm below the base beach level at the beginning of the trial.
 12. Extraction shall take place in the intertidal zone along a centreline nominally at mean sea level.
 13. The grantee shall prepare a monitoring programme. The grantee shall ensure that there are sufficient monitoring points to provide data on all the relevant effects of the beach renourishment trial.
 14. Prior to work commencing, the grantee shall submit an operational management plan to the Manager, Consents and Investigations, Wellington Regional Council, for approval. The operational management plan shall specify how the grantee intends to conduct the trial with respect to the conditions of consent. The grantee may only commence work if the operational management plan is approved.
 15. No equipment shall be stored permanently on the foreshore.
 16. No fuels, greases or oils shall be stored on the foreshore.
 17. The operation shall take place between the hours of 8 am and 5 pm and shall be restricted to week days.
 18. The following noise standards shall apply:
 - (1) The activity shall not cause excessive noise (defined in section 326 of the Act) outside the coastal marine area.
 - (2) The corrected noise level (L10) during the hours of operation shall measured at any point on the coastal marine area boundary shall not exceed 55dB(A)
 - (3) Single noise events shall not exceed an Lmax sound level of 75dB(A).
 - (4) Noise shall be measured in accordance with NZS 6801:1991. Corrected noise levels shall be determined in accordance with NZS 6801:1991. Any construction activities will meet standards specified in NZS 6803P:1982.
 19. The grantee shall, following the completion of the work, remedy all damage and disturbance caused by vehicle traffic and equipment to the foreshore, to the satisfaction of the Manager, Consents and Investigations.
 20. The grantee shall establish a community consultation group including people from the affected areas, iwi representative(s), and representative(s) of the grantee. The group shall be involved with the monitoring and assessment of the beach renourishment trial.
 21. This consent shall only be exercised in the period between May and November inclusive and will expire on 30 November 1995.
